## Fire Danger Index

- Very low possibility of any fire occurrence.**  
Fires can be easily extinguished.

We actively inform citizens about the necessity of avoiding any form of fire-setting.
- Low possibility of fire occurrence.**  
Fires can mostly occur in grass and small shrubs. Controlling fires can be easily achieved.

Informing citizens about the imperative need to refrain from setting fires for any reason is emphasized.
- Moderate possibility of fire occurrence.**  
Fires can be controlled at early stages; however, they could escalate if not promptly extinguished.

Highlighting citizens' importance in refraining from setting fires is crucial, and municipal police should monitor activities in forests and agricultural areas.
- High possibility of fire occurrence and spread.**  
High likelihood of extensive, challenging-to-control wildfires poses a threat to homes, infrastructure, protected forest areas, and natural reserves

Urging citizens to abstain from starting fires is crucial. Municipal police conduct daily patrols to deter fire ignition in forests and agricultural areas. Local firefighting equipment remains ready for prompt intervention in case of a wildfire outbreak.
- Very high possibility of fire occurrence and spread.**  
There is an extremely high likelihood of wildfires occurring and spreading extensively, posing an uncontrollable threat due to their rapid and dense nature. These fires significantly impact large areas, including forests, natural reserves, homes, and structures, all highly susceptible to the extreme danger of wildfires.

Municipal police patrol every two hours, actively preventing citizens from starting fires in forests and agricultural areas. Local firefighting equipment is always ready for immediate intervention. Emphasis is placed on reporting any fire promptly, regardless of size, to civil defense. Municipal police and firefighting teams swiftly respond to reported smoke, taking immediate action to extinguish any fire and mitigate risks effectively.
- Extreme conditions of fire occurrence and spread.**  
There is a severe probability of wildfires occurring and spreading.

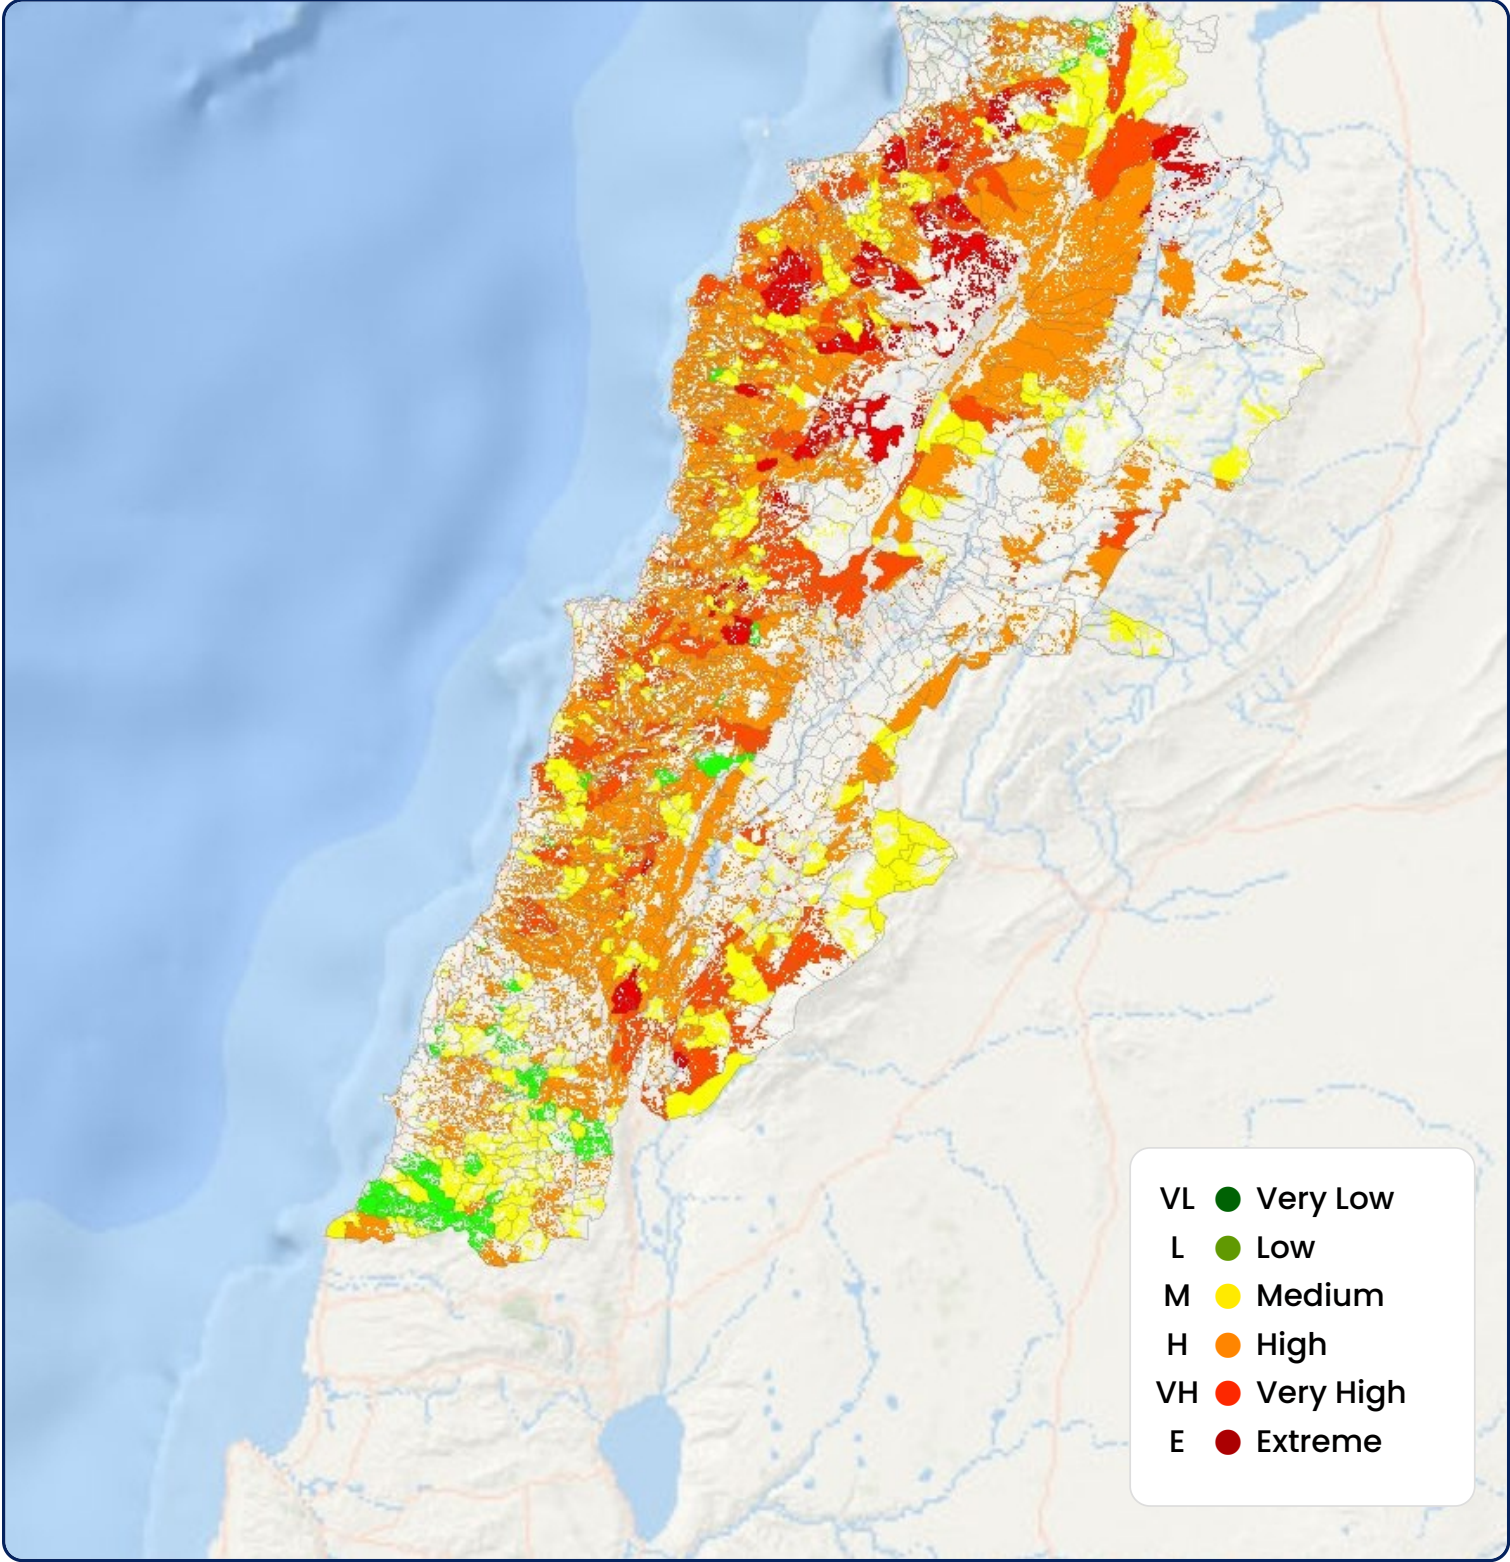

Continuous patrols by municipal police deter citizens from starting fires in forests and agricultural areas. Local firefighting equipment is always ready for immediate deployment to sensitive locations. Ensuring a water source is crucial, and prompt reporting of any fire, regardless of size, to civil defense is emphasized. Municipal police and firefighting teams promptly respond to reported smoke, working to extinguish any fire immediately. If the local group cannot control the fire, seeking support from civil defense is prioritized.
